TBC is like a resource hub for us. The amount of resources and the network we have access to is unbelievable; we hope to nurture our business through it. It was a great experience, and I am sure there is a lot more to learn in the near future.

TBC's Accelerator programme is like a business toolbox for us, and we look forward to using those tools in the coming years. We now have a better understanding of our role, our strengths, and the opportunities in the sanitation business. A big thanks to our mentors and TBC for enabling this journey for us.
