When joining the Accelerator in 2020, we only had five toilets. Right now, we are operating 33 and have tested various different models to optimise our products — increasing both operations and revenue. We received a lot of support from the mentorship at the Toilet Board Coalition to develop our business case and design our services based on community needs — from toilets in parks, public places and hospitals.

Farhana Rashid, Entrepreneur at Bhumijo

Founded in 2015, the Toilet Board Coalition accelerates business solutions to the global sanitation crisis. The Coalition facilitates vital partnerships between small and medium-sized enterprises (SMEs), corporates, NGOs, investors and governments who share a commitment to achieve access to sanitation and hygiene for all by 2030 (SDG 6.2).

Through its world-renowned Accelerator, the Coalition provides business model design, corporate mentorship and access to investment to Sanitation Economy entrepreneurs serving low-income markets. To date, the Coalition has graduated over 50 SMEs, impacting more than 2.2 million people daily and unlocking US$22 million in finance. Our 80+ Members’ diverse approach to sanitation proudly leads to essential innovation in toilet design, circular recovery of biological resources, and smart digital technologies to ensure safe and sustainable sanitation for all.

The Toilet Board Coalition and its work is made possible by the generous support of its Membership. The contents are the responsibility of the Toilet Board Coalition and do not necessarily reflect the views of the Members.
