ABOUT TUMI ROBOTICS

Founded in Peru, TUMI Robotics provides inspection, digitisation and diagnostic solutions for sewerage infrastructure and water bodies. Using robotics and artificial intelligence (AI), the company generates actionable data for the mining, energy and hydrocarbon industries, and enhances operational efficiency and sustainability. To date, TUMI Robotics operates in Peru and Chile.

SME'S 12 MONTH ACCELERATOR JOURNEY

TUMI Robotics worked on strategic management at c-level and also looked at client management.

Mentor

Javier Ley,
Kimberly-Clark

"It has been a spectacular experience working with Francisco and Claudia from Tumi Robotics. We have made several improvements within the commercial part. I am extremely proud to have participated and contributed a grain of sand."

Entrepreneur

Francisco Cuellar,
TUMI Robotics

"The experience with the Accelerator has allowed us to fine-tune our business model to serve the water and sanitation industry and to do some very important networking to be able to scale faster in the future."
