ECOSTP[®]
sewage to gold[™]

ABOUT ECOSTP

ECOSTP has a patented 'Net Zero' Sewage Treatment Technology for decentralised, self-sustainable sewage treatment without power, chemicals, or human intervention. This technology recycles wastewater in four chambers with the help of natural bacteria to produce clean water for agricultural and gardening purposes.

IMPACT TO DATE

8,667 tCO₂

GHG emissions (CO₂e)
reduced, sequestered, or avoided

9,998 m³/day

of wastewater
recycled

ECOSTP: 12 MONTH ACCELERATOR JOURNEY

Built capacity in investment readiness and financial modeling; enabled investor & grant connections.

Malavika Ravi
Toilet Board Coalition

ACCELERATOR COACH

"Working with ECOSTP has been one of the key and defining parts of my career at TBC. The team is so hard-working, so committed to the cause, and truly amazing and entrepreneurial. The solution is groundbreaking and is sure to be very successful."

Tharun Kumar
ECOSTP

ENTREPRENEUR

"The Toilet Board Accelerator was instrumental in helping us freeze our unit economics and build a robust 3-year business plan. The expert mentorship and strategic guidance provided clarity and confidence in scaling our nature-based sewage treatment solutions sustainably."
