

# 20 ACCELERATOR 25 IMPACT STORY

Smart Sanitation Marketplace

India

2025 Cohort

## ABOUT ILONNATI INNOVATIONS

Ilonnati provides a Smart IoT solution for measuring and monitoring water pipelines, along with specialised learning support and data pattern recognition systems tailored to meet business requirements. The aim is to decrease water wastage, prevent theft, leakages, pipe bursts, and tampering in bigger pipelines. The key components of the solution are Smart Sensors for comprehensive monitoring, AI and ML for data segregation, edge Computing for real-time responsiveness, remote control and actuation.

## ILONNATI INNOVATIONS: 12 MONTH ACCELERATOR JOURNEY

Supported the SME on investment readiness, financial modeling, and connections to investors and grant applications

### ACCELERATOR COACH

*"The team at Ilonnati is a combination of talent, innovation and commitment. I am sure they will soon be generating over a million dollars and grateful that TBC could be a small part of their journey."*

**Krishna Chalam**  
Ilonnati Innovations

### ENTREPRENEUR

*"The TBC Accelerator mentorship was instrumental in helping us strategically pivot our focus from a B2G to a B2B model, which directly led to securing our first international client. The invaluable guidance from the mentors provided us with the clarity and confidence needed to refine our operational strategy and effectively scale our business."*
