ABOUT SUDRAIN

SUDrain is a Cambodia-based social enterprise pioneering eco-friendly wastewater treatment solutions using an innovative technology that utilises biofilm filters made from locally sourced coconut fiber. The company provides a cost-effective, scalable, and non-electric alternative to conventional wastewater systems, from consultation and design to installation and long-term maintenance.

IMPACT TO DATE

1000+

Improved lives for rural households
across 10 provinces

150 m³

Wastewater treated
per day achieving 90% pollutant removal rate

31

Wastewater treatment solutions
benefitted public schools

**Business impact numbers from establishment to date*

SUDRAIN: 12 MONTH ACCELERATOR JOURNEY

Supported SUDrain in crafting a proposal for a new solution, identifying funding opportunities to support business expansion, and developing a compelling pitch deck with detailed financial projections to engage investors effectively.

Rasmey Heang
Toilet Board Coalition

ACCELERATOR COACH

"Their nature-based wastewater solution is both innovative and bold, and despite the challenges of a new idea, the entrepreneur pursues it with inspiring passion."

Thary Vorn
SUDrain

ENTREPRENEUR

"The Accelerator has been an incredible journey for SUDrain, providing not only mentorship and resources but also a strong network of inspiring women leaders in climate tech. It has empowered us to strengthen our impact and scale our sustainable wastewater solutions with greater confidence and collaboration."
